

SITE UPDATE | May 2026

We are excited to share the most recent update from the team at Bugler as we work to deliver new affordable and sustainable homes for local residents on behalf of Kingston Council.

Progress on site has continued well over the past month. Ground floor walls to Block A and the bungalows are now under construction and have progressed to approximately halfway up to first-floor level.

At Block B, substructure blockwork is currently underway, alongside the installation of underground drainage, marking good progress below ground in preparation for the next stages of construction.

Block A brickwork halfway to 1st floor

LOOKING AHEAD

Over the next period, works to Block A will focus on completing the ground floor walls in preparation for the installation of the precast floor planks. At Block B, construction will progress with the installation of ground floor block and beam flooring, following on from the completed substructure works.

ABOUT BUGLER DEVELOPMENTS

Bugler Developments has been building high quality homes since 1982. We are a family-owned, award-winning contractor, working on behalf of local authorities and housing associations across London and the Southeast of England.

With our understanding and wealth of experience, we offer an integrated approach to the delivery of residential and mixed-use developments.

Giving back is also a key facet of what we do, and through the Bugler Foundation we have supported many worthwhile causes - from mental health to grassroots sport and local initiatives.

Social Value has always been important. We recognise that there is a duty to us as housebuilders to provide a positive legacy to the communities in which we work, both while we are on the site and after, and this is something our whole team buys into.
