

SITE UPDATE | April 2026

We are pleased to share the most recent update from the team at Bugler as we look to create new affordable and sustainable homes for local residents on behalf of Royal Borough of Kingston.

Progress on site has continued at pace since our last update. The brickwork for the foundation of Block A is now finished, and the floor structure is almost complete. Outside of the site, the connection to the main sewer on Acre Road is nearly done and the required road closures will be removed in the coming days. We have also started building a new vehicle entrance from Acre Road, marking another key step forward as we prepare for the next phase of construction.

LOOKING AHEAD

As we move into the next period, we have now commenced the brickwork superstructure on Block A, which will continue to rise as works progress.

Underground drainage installation within The Mews will also continue over the coming weeks.

ABOUT BUGLER DEVELOPMENTS

Bugler Developments has been building high quality homes since 1982. We are a family-owned, award-winning contractor, working on behalf of local authorities and housing associations across London and the Southeast of England.

With our understanding and wealth of experience, we offer an integrated approach to the delivery of residential and mixed-use developments.

Giving back is also a key facet of what we do, and through the Bugler Foundation we have supported many worthwhile causes - from mental health to grassroots sport and local initiatives.

Social Value has always been important. We recognise that there is a duty to us as housebuilders to provide a positive legacy to the communities in which we work, both while we are on the site and after, and this is something our whole team buys into.
