

Indicative CGI of Brent Court

SITE UPDATE | February 2026

We are pleased to announce that the car park works at **Brent Court** will be completed very shortly.

The project includes tarmac works connecting the development to the main road, providing permanent and safe access, alongside the installation of new electric vehicle chargers to support sustainable travel. Please note the Electric Vehicle chargers are not energised and will not be in use immediately, we will update you on when they will be available. Soft landscaping has also been completed, enhancing the overall appearance of the site, while all brickwork and blockwork works have been finalised, marking the conclusion of the main construction activities. Railings to the retaining wall have been installed, ensuring both safety and a high-quality finish. Client snagging inspections are due to take place shortly, following these inspections we hope to open the new car park for use.

We would like to thank all residents and stakeholders for their patience and cooperation throughout the works.

The new car park is the first phase in providing much needed additional parking spaces in this location, making better use of the available area. When the new building is complete, car parking capacity will be significantly improved including additional car parking for the residents of the existing Brent Court.

Description: New kerb line to car

RESIDENTS NEWSLETTER

Brent Court | Stevenage

LOOKING AHEAD

Looking ahead, we will be commencing demolition of the existing garages week commencing 2nd March 2026. As mentioned before the new Brent Court building is above 18 meters in height and therefore is classed as a High-Risk Building (HRB). Our submission is currently being reviewed by the Building Safety Regulator and once complete we can progress further with the main build.

We kindly ask that all cars currently in the carpark relocate to the new car park by 25th February to allow the works to progress.

The Bugler team is always available should you have any questions or queries. Please feel free to contact us using the details provided below.

ABOUT BUGLER DEVELOPMENTS

Bugler Developments has been building high quality homes since 1982. We are a family-owned, award-winning contractor, working on behalf of local authorities and housing associations across London and the Southeast of England.

With our understanding and wealth of experience, we offer an integrated approach to the delivery of residential and mixed-use developments.

Giving back is also a key facet of what we do, and through the Bugler Foundation we have supported many worthwhile causes - from mental health to grassroots sport and local initiatives.

Social Value has always been important. We recognise that there is a duty to us as housebuilders to provide a positive legacy to the communities in which we work, both while we are on the site and after, and this is something our whole team buys into.
