

SITE UPDATE | May 2026

We are pleased to share the may newsletter for the Falling Lane development project. This newsletter will keep you updated on the progress of the site as we work towards building 90 new homes with 50 at this site and communal spaces across 2 sites.

During this period, significant progress has been made across multiple areas of the project. We have recently installed the steelwork for the lift pit and the stairs for core 2 we have also installed the attenuation tank which is an underground storage system to temporarily hold rainwater runoff.

We are also continuing to make strong progress on site preparations, ensuring the development remains on schedule for the next stages of construction.

LOOKING AHEAD

Looking forward we will continue with the ground works including all the ground beams which are designed to provide a stable support for walls and pile caps which are a thick reinforced concrete mat to help distribute structural loads from the columns to the foundation.

ABOUT BUGLER DEVELOPMENTS

Bugler Developments has been building high quality homes since 1982. We are a family-owned, award-winning contractor, working on behalf of local authorities and housing associations across London and the Southeast of England.

With our understanding and wealth of experience, we offer an integrated approach to the delivery of residential and mixed-use developments.

Giving back is also a key facet of what we do, and through the Bugler Foundation we have supported many worthwhile causes - from mental health to grassroots sport and local initiatives.

Social Value has always been important. We recognise that there is a duty to us as housebuilders to provide a positive legacy to the communities in which we work, both while we are on the site and after, and this is something our whole team buys into.
