

Indicative CGI of Mereway Road Project

### SITE UPDATE | April 2026

We are excited to share with you our April newsletter for Mereway Road, where we are delivering seven new homes for social rent on behalf of RHP (Richmond Housing Partnership).

Over the past weeks we have been continuing with the installation of incoming water and electrical services.

Substructure works have also been completed. The primary purpose of the substructure is to transfer the load of the building safely to the ground, ensuring structural stability.

Haul road construction

Block and beam flooring construction

### LOOKING AHEAD

Over the coming weeks, we are pleased to inform you that the bricklaying will commence. This crucial stage of the build connects the foundation to the main building superstructure, ensuring it is level, stable and secure.

The project team established a temporary haul road specifically to accommodate the forklift which will be installed over the coming period.

### ABOUT BUGLER DEVELOPMENTS

Bugler Developments has been building high quality homes since 1982. We are a family-owned, award-winning contractor, working on behalf of local authorities and housing associations across London and the South East of England.

With our understanding and wealth of experience, we offer an integrated approach to the delivery of residential and mixed-use developments.

Giving back is also a key facet of what we do, and through the Bugler Foundation we have supported many worthwhile causes - from mental health to grassroots sport and local initiatives.

Social Value has always been important. We recognise that there is a duty to us as housebuilders to provide a positive legacy to the communities in which we work, both while we are on the site and after, and this is something our whole team buys into.
