

SITE UPDATE | July 2026

We are excited to share with you the progress that has happened over the last few weeks here at Roselands.

The demolition phase of the project has now been successfully completed. The site has been thoroughly cleared of demolished materials and debris. This marks an important milestone in the development and allows us to safely transition into the next stage of construction.

Newsletter Update

Please note that we are posting our updated newsletters on our communal noticeboards located around site and online. You can read all the project updates sent so far by scanning the QR code, or by visiting www.buglerdevelopments.co.uk/project/roselands-new-malden

LOOKING AHEAD

Waterproofing works have now commenced as part of the next phase of the project.

These works are a critical element of the construction process, providing long term protection to the building structure by preventing water ingress and ensuring durability and performance of the completed development.

Reconstruction preparation - Mortar Silos delivery

ABOUT BUGLER DEVELOPMENTS

Bugler Developments has been building high quality homes since 1982. We are a family-owned, award-winning contractor, working on behalf of local authorities and housing associations across London and the South East of England.

With our understanding and wealth of experience, we offer an integrated approach to the delivery of residential and mixed-use developments.

Giving back is also a key facet of what we do, and through the Bugler Foundation we have supported many worthwhile causes - from mental health to grassroots sport and local initiatives.

Social Value has always been important for us as a company we recognise that there is a duty to us as housebuilders to provide a positive legacy to the communities in which we work, both while we are on the site and after, and this is something our whole team contributes to.
