

Indicative CGI of Whitings Road Project

SITE UPDATE July 2026

We are pleased to share our first newsletter, providing an update on the progress of site to provide 35 residential units (twenty-nine houses and six flats) with associated car parking, cycle storage, refuse/recycling storage, amenity space and landscaping.

As you will have noticed, we continue to have lorries arriving at and departing from the site. All vehicle movements are strictly controlled by our Traffic Marshals.

While the school remains in term, all deliveries to and from the site continue to operate within our restricted delivery hours. This arrangement will change once the school closes for the summer holidays, at which point our delivery schedule will be adjusted accordingly.

LOOKING AHEAD

We will commence the erection of the site hoarding and our tree surgeons will undertake works to the trees at the front of the site.

In addition, we will begin constructing the piling mat. This is a temporary working platform that provides a stable surface for the piling rig to operate safely during the foundation works.

We also have environmental monitoring stations positioned around our site perimeter, these stations continuously monitor noise levels and dust to help ensure that our works remain within the required environmental standards.

Site Clearance

Newsletter Update

Just a reminder, that we are posting our updated newsletters on both our communal noticeboards located around site and online, this can be accessed by scanning the QR code, which will take you to the project page on our website, where you will find project particulars and past copies of all newsletters and communications issued.

ABOUT BUGLER DEVELOPMENTS

Bugler Developments has been building high quality homes since 1982. We are a family-owned, award-winning contractor, working on behalf of local authorities and housing associations across London and the Southeast of England.

With our understanding and wealth of experience, we offer an integrated approach to the delivery of residential and mixed-use developments.

Giving back is also a key facet of what we do, and through the Bugler Foundation we have supported many worthwhile causes - from mental health to grassroots sport and local initiatives.

Social Value has always been important. We recognise that there is a duty to us as housebuilders to provide a positive legacy to the communities in which we work, both while we are on the site and after, and this is something our whole team buys into.
