Whitings Road | Barnet

Indicative CGI of Whitings Road Project

SITE UPDATE October 2026

We are pleased to share our newsletter, providing an update on the progress of site to provide 35 residential units.

We are happy to report that the new site access road is now complete. The next step will be the construction of the new entrance; however, this cannot commence until the British Telecom (BT) pole has been relocated.

Also, within the period, we have also commenced foundation work along the boundary with Whitings Hill Primary School, as shown in the adjacent image.

Foundation Works

Concentrate pour for the foundations

LOOKING AHEAD

Over the coming weeks, we will complete the remaining concrete foundations along the boundary with Whitings Hill Primary School and to the rear of the site.

In addition to this, we will begin constructing the concrete retaining walls along the school boundary, laying the brickwork below ground level and installing internal drainage. This will be followed by the installation of block and beam flooring.

We will also continue progressing the new road formation within the development, with works moving closer to the site boundary during this period.

ABOUT BUGLER DEVELOPMENTS

Bugler Developments has been building high-quality homes since 1982. We are a family-owned, award-winning contractor, working on behalf of local authorities and housing associations across London and the Southeast of England.

With our understanding and wealth of experience, we offer an integrated approach to the delivery of residential and mixed-use developments.

Giving back is also a key facet of what we do, and through the Bugler Foundation we have supported many worthwhile causes - from mental health to grassroots sport and local initiatives.

Social Value has always been important. We recognise that there is a duty to us as housebuilders to provide a positive legacy to the communities in which we work, both while we are on the site and after, and this is something our whole team buys into.
