

Indicative CGI of Whitings Road Project

SITE UPDATE September 2026

We are pleased to share our newsletter, providing an update on the progress of site to provide 35 residential.

We are delighted to confirm that all piling works have now been successfully completed. We have moved into the next phase of the programme and have commenced foundation works, including exposing the completed piles (please see adjacent image) and installing the steel ground beams that will form part of the building's foundation structure. You will also notice that the new site office and welfare cabins have now been installed on site. These facilities are necessary to support the project team throughout the construction phase and the development.

Commencing the foundations

New Access Road to site

LOOKING AHEAD

We are pleased to confirm that the new access road to the site has now been completed. As part of the next stage of works, we will be constructing a new permanent site entrance over the coming weeks. In preparation for these works, we are currently awaiting the relocation of a British Telecom pole, which must be moved before construction of the new entrance can commence.

ABOUT BUGLER DEVELOPMENTS

Bugler Developments has been building high-quality homes since 1982. We are a family-owned, award-winning contractor, working on behalf of local authorities and housing associations across London and the Southeast of England.

With our understanding and wealth of experience, we offer an integrated approach to the delivery of residential and mixed-use developments.

Giving back is also a key facet of what we do, and through the Bugler Foundation we have supported many worthwhile causes - from mental health to grassroots sport and local initiatives.

Social Value has always been important. We recognise that there is a duty to us as housebuilders to provide a positive legacy to the communities in which we work, both while we are on the site and after, and this is something our whole team buys into.
